

Dear Fellow Leaders,

We are excited that we can provide you with many additional helps that have been used by seasoned facilitators of Today's Modern Day Princess. We hope this CD will make your job much easier and more enjoyable. We believe that providing you with these tools enables you to make the choices that best fit your group and their needs.

All items have all been created in both WORD (so that you can input your own name, personal information, locations of events, etc.), and as PDF's (so you can copy and paste them into a document and then insert a textbox with your info). Feel free to change anything in order to fit your needs. We want you to make it your own!

Here is a brief explanation of what is contained on this CD:

1 – Introduction

Please read first! to give you a better understanding of what you will find in each folder in your Supplemental CD and how to use the items

2 – Prep & Make it Your Own

These documents will help you prepare for:

- presenting the Modern Day Princess program to your community, as well as to your teen girls and their parents
 - implementing the program and holding parents' meetings
 - the final Celebration Ceremony

3 - Session Supplements

These are items that compliment your classes, sorted by specific Sessions.

Though there are not items in every folder, we encourage you to save items YOU create and begin filling those empty folders up.

Also included in each session folder are “**Extra Helps**” documents for those of you who have the time and desire to go deeper in a particular session or “step it up a notch”. (These “Extra Helps” materials are also handy for those who would like to extend the MDP program beyond the regular 10 weeks.) Most of these extras are items and documents that other facilitators have created and used in the past. We hope they might be helpful to you as you begin your journey as a facilitator. There's no need to recreate the wheel when someone has already forged the road before us!

4 – Dad's Tool Box

This folder includes recommended reading, videos, and general helps and encouragements for Dads as they prepare for the ceremony and continue with their ongoing relationships with their daughters.

You can open this CD on your computer, and then save EVERYTHING right into your own documents files! Then save any documents you create in the same place.

We hope you will be blessed by it all!
Created by Doreen Hanna, Kara Ashbaugh,
Pam Farrel, and Naomi Shedd

The Title pages for each section of the CD are included in the event you want to print a complete 3-ring binder copy of all the documents contained on the CD.
